CHAIRMAN'S STATEMENT

The year 2016-2017 continued as a challenging year for companies who were in Iron & Steel manufacturing and your Company was no exception. The Indian economy continued to face troubled times due to economic recession. The so claimed ease of business is no where visible. The government is increasing penalties and amending the law at a very fast speed. Orders already awarded are generally progressing slowly due to various continuing problems. All these factors combined, have led to a vicious cycle culminating in a pile up of debt or corporate debt restructuring and high consequential costs for the construction industry.

As I said last year, I repeat it as that there is no significant change. A lot of hope was pinned on the new Government at the Centre to bring about much needed policy initiatives and systemic changes which alone would have brought the required equilibrium followed by growth trajectory. Regrettably, these have not so far been eased out with the required speed and the problems continue festering.

One good step the government has taken is the introduction of Goods & Service Tax in place of multiple taxes and the abolition of Vat barriers which will give speed to movement of goods and result in lower transport cost. Our domestic costs are higher as compared to foreign countries like China. One hopes many of the teething problems on implementation of GST will be resolved by the government soon.

I am happy to highlight some of the operational achievements. Sales turnover at Rs. 255.51cr is higher by 7.58% as compared to Rs.237.51cr in the previous year which witnessed a decline of 7.29% - thus there is a U-turn from decline to increase.

The material cost during the current year is Rs.160.90cr is higher by 6.65% as compared to Rs 150.88 of previous year. The material cost is higher due to higher turnover which has increased by 7.29% and the full credit goes to better purchase planning by team Vaswani.

Manufacturing expenses during the current year is Rs.33.58cr and is lower by 7.82% as compared to Rs.36.43cr of previous year. This is due to better production planning.

Employees Remuneration & benefits during the current year is Rs.3.37cr as compared to Rs.3.99cr and there is decrease of 15.52%. The achievement is due to better man power planning.

Administrative & Other Expenses during the current year are at Rs.3.23cr and are higher by 56.89% as compared to Rs.2.06cr in the previous year. The main reason for this increase is the impact of taxes during the current year.

Depreciation during the current year was Rs.5.74cr and is lower by 9.95% as compared to Rs.6.37cr of previous year.

Coming to the profit for the current year, your company has earned after tax at Rs.1.77cr as compared to Rs.1.15cr of previous year and is higher at 53.3%, an all time record.

I sincerely place on record my thanks to our strategic employees, bankers and all stakeholders for their support and the faith reposed in us during these tough times and we assure all that we will work towards our goal with renewed and dedicated commitment.

RAVI VASWANI CHAIRMAN

(This does not purport to be a part of the proceedings of the annual general meeting.)

OUR COMPETITIVE STRENGTHS

Management Expertise

Promoters are in trading & steel manufacturing business for last more than two decades. They have track records of profits. They have, over the years, gained experience in setting up and operating integrated steel plants. The promoters established competitive position of the Company in the local markets. The Company enjoys an established customer base and a supplier network in Uttaranchal, Chhattisgarh, Maharashtra, and Madhya Pradesh. In addition to our Promoters, Company has a professionally managed team with technical experts in their respective fields.

Mr. Ravi Vaswani

is the Managing Director of our company. He is a Commerce Graduate by qualification and is a founder of Vaswani Group. He has an experience of steel business for more than 3 decades. As he entered the industry at an early age, he got a good grass root experience. He has achieved extensive knowledge in trading and marketing of sponge iron, steel billets/ingots and responsible for the day to day operations of our company

Mr. Yashwant Vaswani

is the Whole Time Director of our company. He is an under araduate (Commerce) qualification. He entered the family business with his father Ravi Vaswani in his proprietorship firm named M/s Kwalitv Foundry Industries. Further, being involved with the Sponge Iron plant from the conception stage and onwards, gained has hands-on experience in the day-to-day operation of the same.

Business Strategy

The key components of our strategy to drive profitable growth and to maximize value are to continuously enhance customer satisfaction, attract & retain qualified employees, maintain stringent standards of environmental safety and corporate responsibility.

Keeping in view the above, your Company continues to follow certain proved strategies to take its market share and keep improving below:

Sales and Marketing

We constantly keep reviewing our position and make all efforts to consolidate our position in Chhattisgarh and penetrate in Northern, Western and Eastern parts of the country. In parallel, we also strive to build credible long term relations full of mutual understanding.

Continued focus on consistently meeting quality standards

Zero error is our motto. This has resulted in creating a reputation with our suppliers. We follow this policy consistently and supply quantity without compromising on the quality and delivery schedules.

Mix of Organic and Inorganic Models of Growth Over the past few years we are following a combination of organic and inorganic models to help us grow. We may go for strategic acquisitions in leveraging complementary skills to capture market opportunities as well to accelerate growth.

Training and Motivating Our Work Force

Your Company will continue the policy of training of the work force with adequate product knowledge, market knowledge and above all the application of knowledge. We shall always focus on narrowing the hierarchy for free and transparent two-way communication between management and employees for better exchange of ideas, views and opinions for maintaining good competitive work atmosphere at all levels.

Cordial Relationship between management and labour

Your Company continues to enjoy cordial relations with our employees and there has been no union of employees. Further, there have been no strikes, lock-out or any labour protest in our Company since its incorporation.

Expected High Operating Efficiency

The Company's steel plant is fully integrated. The sponge iron manufactured by us is used as raw

Our Vision

Our vision is to make VIL a trusted brand name by creating a distinct status for ourselves in the Integrated Steel business, driving growth through both organic & inorganic initiatives. We believe in meeting expectations of all stake holders, members; employees; suppliers; customers and others associated with us.

Business Model

 Key Activities: Mild Steel Billets/ Ingots manufacturer material to manufacture Mild Steel Billets/Ingots. Thus, the finished product of one unit acts as a raw material for the other unit. The current power capacity is meeting the power requirements and as well as the surplus is being sold to the private power companies as well as State Electricity Board. Due to integration, our company as a whole has been able to reduce its cost of production. Your company can sustain/absorb adverse market situation during cyclical recession. The steel industry is highly power-intensive and captive power generation plant, which has low cost per unit, is leading to significant cost saving and adding to profitability.

Captive Power Plant

Steel industry is power intensive industry. Power plays an important factor. Considering the power requirements of our existing manufacturing facilities, your Company has increased the generation capacity from 7.5 MW to 12 MW from Waste Heat Recovery Boiler to meet the present requirement of power as well as to sell off the surplus through private power companies and State Electricity Board. Captive power plant gives us the stable and uninterrupted power supply which is very crucial in manufacturing of our products. Uninterrupted power supply helps to avoid any delays in manufacturing process thereby ensuring complete utilization of our capacities.

- Key Resources: Sponge Iron, Captive Power Plant
- Customers Relationship: Product excellence, on time delivery and customer services
- Channels: Government authorities, Semigovernment authorities
- Cost structure: Based on Government Rules and Regulations

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENTS

Consumption of steel is an indicator of economic development. While steel continues to have a stronghold in traditional sectors such as construction, housing and ground transportation, special steels are increasingly used in engineering industries such as power generation, petrochemicals and fertilizers. Your company is engaged in integrated business of manufacture of sponge iron, steel billets & ingots and power generation at Sondra village in Raipur (Chhattisgarh).

OPPORTUNITIES AND THREATS

OPPORTUNITIES

Growth in the steel demand has strong correlation with growth in GDP of nation. The Indian economy was expected to grow at a spectacular growth rates of GDP; but unfortunately the same is not happening. The demand for sponge iron in medium term is becoming healthy due to closure of many sponge iron plants for want of iron ore supply to them. Steel through induction furnace route is on the verge of reduction. Consequently merchant sponge iron suppliers will be under pressure on account of market demand. The company, therefore, has vision to shift focus to steel making from its own sponge.

The important policy measures which have been taken over the years for the growth and development of the Indian iron and steel sector are as under:-

- (i) Currently, import duty on steel items from existing 5% to 10%. The import duty on raw materials like melting scrap, coking coal, met coke is NIL and between 2 to 5 percent for other raw materials such as Zinc, Iron Ore and Ferro Alloys. There is no export duty on any steel item. Government has rightly imposed ad-valorem export duty of 30 per cent on iron ore lumps in order to conserve the mineral for long term requirement of the domestic steel industry.
- (ii) GST will bring uniform effect at the National level Excise duty for steel is currently at 12 per cent.
- (iii) To ensure sufficient domestic availability and curb the rising price of hot-rolled coils in the domestic market, its imports have been freed by the government.
- (iv) The National Steel Policy 2005 is being updated to provide a roadmap for Indian Steel Industry's long term growth prospects in view of fast-changing nature of operations, structure and dynamics.
- (v) For ensuring quality of steel several items have been brought under a quality control order issued by the Government. The matter to bring more steel items under this order is under examination.
- (vi) In order to obtain full picture of the pattern of rural steel consumption in the country, an all India survey was commissioned by the Ministry of Steel. The survey work was coordinated by Joint Plant Committee, Kolkata and the field work was carried out by IMRB International, a leading market research organization. The study report was examined by a high-level Committee appointed by the Ministry of Steel for devising roadmap for implementation of the recommendations of the study, which have submitted its report to Ministry of Steel. Further action as per recommendations of this committee is being taken.

THREATS

Cost of Iron ore and coal i.e. the basic raw material has a direct impact on the profitability. Iron ore prices has increased substantially and availability of the required grade has suffered to a great extent due to various restrictions imposed by the authorities. Coal India's new coal distribution policy and consequent Fuel Supply Agreement has disrupted coal linkages forcing producers to procure more e-auction coal. Coal India has also increased the price of coal substantially.

The cost of iron ore and coal constitute more than 80% of cost of production. Profitability of the company depends on market price of these raw materials vis-à-vis price of sponge iron. The only way to substantially reduce the cost of iron ore and coal is to have captive mines for these raw materials. The coal block which is under development will meet most of the coal requirements. Delay in starting the mining operations is only due to external factors. Further, the coal linkage has been discontinued forcing the company to procure the required coal through e-auctions of coal India and overseas markets at high cost. The company does not have any iron ore mine.

SEGMENT-WISE PERFORMANCE

The company has three segment iron & steel, power and real estate. The necessary disclosures have been made as per accounting standard 17 on segment reporting in the notes to accounts.

OUTLOOK

The outlook of the company is broadly described in Vision and Mission statements of the Company. Options of shifting focus to steel making, separate power plant at pit head of coal block etc. are being examined to optimize the revenue in future.

OVERVIEW OF THE COMPANY AND ITS PROJECT

Vaswani Industries Ltd. was incorporated under the Companies Act, 1956 on July 22, 2003 with the Registrar of Companies, Madhya Pradesh and Chhattisgarh and obtained Certificate of Business Commencement on February 10, 2004. ANNEXURE B TO THE AUDITORS' REPORT

[Referred to in paragraph 2 (F) under "Report on Other Legal and Regulatory Requirements" of our Report of even date to the members.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **VASWANI INDUSTRIES LTD.** (`the Company') as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as Required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial

controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The financial statements are prepared under the historical cost convention on an accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India, Accounting Standards notified under Section 133 of the Companies Act, 2013 and other relevant provisions thereof. The Accounting policies followed in these financial statements are same as those followed in the financial statements for the year ended March 31, 2017. The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialized. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Revised Schedule VI to the Companies Act, 2013. Based on the nature of activity rendered by the Company and the time between the cost incurred and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

The financial statements are presented in Indian rupees rounded off to the nearest rupees.

b. Use of Estimates

The presentation of financial statements in conformity with Indian GAAP requires judgments, estimates and assumption to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statement and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

c. Fixed Assets

Tangible assets are stated at cost of acquisition (inclusive of freight) or construction net of CENVAT /Tax credit, less accumulated depreciation and impairment loss, if any. All costs, including financial costs till commencement of commercial production and adjustment arising from exchange rate variations attributable to the fixed assets are capitalized.

d. Capital Work- in- progress

Project under commissioning and other capital work-in- progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest

e. Depreciation

- a) Depreciation on fixed assets has been provided on Straight Line Method Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.
- **b)** Depreciation on addition to / deduction from fixed assets is being provided on pro-rata basis from/ to the date of acquisition/ disposal.

f. Inventories

Inventories i.e. stores consumables are valued at cost (exclusive of excise). By Products are valued at estimated realizable value. Raw Materials are valued at cost plus freight using Weighted Average Cost (WAC) method. Finished Goods are valued at cost or net realizable value (NRV) whichever is lower. Finished goods include cost of conversion and other cost for bringing it in the present location and condition including depreciation.

g. Impairment of Assets

An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is normally charged to Profit & Loss account in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount

h. Investment

Long term investments are carried out at cost less any other temporary diminution in value, determined on the specific identification basis.

Current investments are carried at the lower of cost and fair value.

Profit & Loss on sale of investment is determined on specific identification basis.

i. Revenue Recognition

Revenue is recognized only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection. Revenue from operations includes sale of goods, services and excise duty.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

However, where the amount is immaterial / negligible and/or establishment of accruals / determination of amount are not possible no entries are made for the accrual.

j. Other income

Interest income is accounted on an accrual basis. Dividend income is accounted for when the right to receive income is established.

k. Borrowing Cost

The Borrowing costs that are attributable to the acquisition or construction or production of the qualifying assets are capitalized as per the cost of such assets up to the date when such assets are ready for its intended use. All other borrowing costs are charged to the Profit & Loss A/c.

I. Accounting for Taxes on Income

- (a) Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations.
- (b) Deferred tax assets and liabilities are recognized for future tax consequences attributable to the timing differences that result between taxable profit and the profit as per the financial statement. Deferred tax assets & liabilities are measured using the tax rates and the tax laws enacted or substantially enacted as on the Balance Sheet date.
